Customer information on product safety –

Professional installation of Mercedes-Benz Genuine Parts

Thank you for choosing to purchase a Mercedes-Benz genuine part.

Mercedes-Benz genuine parts are subject to strict quality standards and will optimally ensure the performance and safety of your Mercedes-Benz vehicle.

If you or your organisation have limited or lacks necessary technical knowledge and equipment to professionally install a Mercedes-Benz genuine part, we recommend to install at Mercedes-Benz authorised workshop, who can also carry out or arrange for necessary documentation.

This is especially true for all safety-related work, such as on live parts, vehicle-dynamics systems, restraint systems, driving assistance systems, suspension.
